

### **CERTIFICATE GUIDE**

# Global Organic Textile Standard (GOTS)

GOTS is the worldwide leading textile processing standard for organic fibers, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

Having one common standard means textile processors and manufacturers can export their fabrics and garments with one organic certification that is accepted in all major markets.

This transparency also gives consumers the power to choose truly organic products sourced from green supply chains.

The Standard provides for a subdivision into two label-grades:

"made with (x %) organic materials" or "made with (x %) organic - in conversion materials" "organic" or "organic - in conversion"

No less than 70% (≥70%) of the fiber content of the products - excluding accessories - shall be of certified organic origin or from the 'in conversion' period No less than 95% (≥95%) of the fiber content of the products - excluding accessories - shall be of certified organic origin or from the 'in conversion' period

### **Organic Content Standard (OCS)**

The standard is used to verify organically grown raw materials from the farm to the final product.

Intended for the sustainable labeling of clothes of mixed fiber, part of which consists of organic cotton with a minimum 5%-maximum 95%.

There are no other restrictions on the remaining content.

### Organic 100 Content Standard (OCS 100)

The Organic Content Standard 100 covers the processing, manufacturing, packaging, labeling, trading, and distribution of a product that contains at least 95% certified organic cotton.

There are no other restrictions on the remaining content.

### **CERTIFICATE GUIDE**

### **Global Recycled Standard (GRS)**

The GRS is an international, voluntary, full-product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices, and chemical restrictions.

The goal of the GRS is to increase the use of Recycled materials in products and reduce or eliminate the harm caused by its production.

The Global Recycled Standard is intended for use with any product that contains at least 20% recycled material.

### **Recycled Claim Standard (RCS)**

The Recycled Claim Standard verifies the presence and amount of recycled material in a final product. This happens through input and chain-of-custody verification from a third party.

The Recycled Claim Standard certification has two product labels:

### **Recycled Claim Standard Blended (RCS)**

The Recycled Blended Claim Standard is intended for use with any product that contains at least 5% recycled material.

There are no other restrictions on the remaining content.

### Recycled Claim Standard 100 (RCS 100)

The Recycled 100 Claim Standard guarantees that the product contains 95-100% recycled content.

There are no other restrictions on the remaining content.

# N CONVERSION" TRANSFORMATION

KARIBAN BRANDS is committed to deploying «In Conversion» cotton by developing a comprehensive and sustainable support programme for farmers, enabling them to gradually switch from conventional cotton to organic cotton cultivation.

# 3 YEARS

It takes 3 years to rid conventional cotton plots from traces of pesticides and to regenerate.

From the first day of this transition programme, production scrupulously complies with the standards required by the organic sectors.

### **KARIBAN: GOTS CERTIFIED IC COTTON**

The Kariban brand has chosen to end its item codes with the letters «IC», so it's easier to identify «In Conversion» items.

Maintaining its progress towards more sustainable collections, Kariban insisted that all «IC» designs obtain GOTS-In-Conversion certification (Global Organic Cotton Standard) EGL/165651.

#### The different stages of this biological transition:

Natural cotton

No pesticides

No GMOs

No chemical fertilisers

Crop rotation culture

# "Trust what you wear,

Trust comes with confidence and must be earned, and this is especially true when it comes to clothing. Throughout the entire production process, we strive to respect people as well as the planet whilst guaranteeing our products are high quality and durable. This in turn ensures you can have full confidence in our brands. Our full list of commitments is set out in our wear&care programme, based around 3 key areas: PRODUCT, PEOPLE and PLANET.

### PRODUCT:

Our entire philosophy is based around our product. Our aim is to offer customisable clothing so that everyone can express their uniqueness. We undertake to manufacture high quality clothing that is designed, produced and marketed with respect. Wherever possible, we are also committed to making our products from eco-friendly materials (organic cotton and/or recycled polyester), and updating our collections by replacing conventional materials with eco-friendly ones.

# PEOPLE:

Behind every single product and brand within the SOLO Group are the people who have created, designed, manufactured, shipped and sold them, as well as those who wear them. This is why we are committed to producing our clothing and accessories in ways which prioritise people, their working conditions and rights. We are also committed to working with various different charities that help improve living conditions outside the workplace.

### **PLANET:**

As our future goes hand-in-hand with that of our planet, we will fight to preserve it every step of the way. Our pledge is to reduce our carbon footprint and that of our products as far as possible, and to strive towards sustainable practices and consumption for our business. At each stage of the manufacturing and marketing chain, we are committed to reducing and optimising our energy use as much as possible, whilst also eliminating unnecessary waste and reusing it where appropriate.

# wear what you trust"\*

Trust comes with confidence and must be earned.

This is why we have implemented various initiatives to make our offer more transparent, providing universal access to all the details relating to a garment.

This year, we are launching a programme in partnership with **AWARE**. An innovative process whereby a tracer is incorporated into the fibre provides full data access regarding the origin and manufacturing of the garment. It works on the principle of creating a digital passport that is updated at each stage of the manufacturing process. It contains all the details users need to ensure they are fully informed. These details are accessed via a QR code.

# The principle:

# Step 1: ACTIVATION

Tracers are embedded into the raw material.

# **Step 2: PRODUCTION**

The material is transformed into a garment, and the passport is updated throughout each stage (spinning, weaving, making-up).

# Step 3: SCAN

A scanner is used to check that the tracers are still present in the finished product.

# **Step 4: AUTHENTICATION**

The data collected during the manufacturing process is used to authenticate the product.

# **Step 5: DISTRIBUTION**

The products are labelled with a unique QR code providing direct access to the product's digital passport.

# MADE WITH RESPECT

LEARN HOW GILDAN BRANDS MAKE THEIR APPAREL WITH RESPECT.

Gildan is made with respect for what matters most: the environment, people, and circularity. Our unwavering commitment to strict, future-forward standards across our entire global operation enables us to Make Apparel Better® with respect to how we make it, who we make it with, and what we use to make it.

RESPECT FOR

the environment

We believe our consideration for the planet as shown by our past and current ESG initiatives at Gildan set us apart from the rest. From reducing fossil fuel consumption and carbon emissions, to managing water consumption and cleaning wastewater so it's safe to return to nature after use, Gildan is continually increasing the energy efficiency of its apparel manufacturing.

RESPECT FOR

circularity

We're committed to ensuring responsible consumption and production patterns. From recovering our waste directly within our supply chain, to using recycled polyester and high-quality, sustainably grown materials, Gildan is committed to significantly lowering our impact on the planet.

respect for people

At Gildan, human rights, ethical labour and inclusivity are priorities. Whether it's through ensuring fair wages, empowering workers to develop skills and pursue education, offering a higher standard of living, giving access to free medical care to some of our manufacturing workers and maintaining safe and healthy work environments, we understand that treating people with respect and dignity is essential to our company's success.

RESPECT FOR

communities

We believe it's vital to create and support positive community development in the countries we operate in. From providing youth education and strengthening social programs to offering employee programs to inspire

and connect, Gildan is proud to continually grow and strengthen our supply chain ecosystems.

RESPECT FOR

transparency

Honesty and ownership are two values at the core of Gildan's business model. The visibility we have over our manufacturing is rare in our industry. Not only can it inspire people to think differently about what they wear, but it can also contribute to the global conversation surrounding supply chain transparency.

# OUR PASSION IS IN OUR GARMENTS.

**GILDAN**°

Gildan® is proud to be reliable, straight-talking and zero fuss. We aim to help decorators and designers run successful printwear businesses. That's why we care about the things that matter: affordable and high-quality garments that last. We've introduced eight brand-new styles. Our collections have grown with the addition of six new Gildan Softstyle® styles, one Gildan Hammer® polo and a Heavy Blend™ blanket. Also, our products come in an even greater selection of colors, thanks to the six new colors that have joined our palette. We're passionate about constantly expanding our range and improving our service so that we can offer smarter choices to our decorators and designers.

## FABRIC AND TECHNOLOGY RANGE

QUALITY GUARANTEE

#### ISOTEX 5000 - 15000

Isotex 5000 through to 15000 fabrics are waterproof, breathable, and windproof.

The hydrophilic breathable system allows inner moisture vapor to escape, it's designed to keep you dry and comfortable outdoors.

#### ISOTEX STRETCH 10000 - 15000

Isotex Stretch fabrics are waterproof, breathable, and windproof. The hydrophilic breathable system allows inner moisture vapor to escape. Designed to keep you dry and comfortable outdoors whilst the active fit stretch yarns give greater comfort and movement.

#### **SOFTSHELL**

With a waterproof hydrostatic head of 3000 mm, the waterproof performance keeps the water out whilst the hydrophilic breathability system allows inner moisture vapour to escape.

#### SOFTSHELL

Our enhanced water repellent treatment keeps you drier for longer, Water rolls off the surface of the garment.

#### SOFTSHELL

Hydrafort 5000 is waterproof and windproof with a hydrostatic head of 5000 mm, it provides reliable protection from the elements in the great outdoors.

#### SOFTSHELL

Water repellent and wind resistant to keep you warm and comfortable during high energy activities.

#### SOFTSHELL STRETCH LIGHT

Durable water repellent outer fabric helps to keep you drier for longer, quick drying for protection from wind chill and fleece backed for comfort and warmth.

#### SOFTSHELL XPT

Water repellent and wind resistant to keep you warm and comfortable during high energy activities. This break through technology enables better breathability whilst the lightweight qualities give greater ease of movement.

#### **EXTOL STRETCH**

Regatta's pinnacle stretch fabric technology is ideal for high energy outdoor activities, with a quick drying finish to minimise rain impact and provide protection from windchill.

#### SYMMETRY

Comfortable and practical to wear, perfect for the outdoors with an anti-pill finish making it durable and long lasting. Quick drying, easy to care for and super soft to provide extra comfort.

#### WARMLOFT

Premium synthetic down touch insulating technology. A highly compressible, soft-touch warmth without the bulk. Water repellent and quick drying to help reduce odor.

#### **THERMO GUARD**

Made up of synthetic fibres which trap the air keeping you warm in cold conditions, soft and light with the warmth coming from the high loft insulation, quick drying and easy to care for.

#### PFC FREE

Products made without using any PFCs. We are committed to finding alternatives to using PFC chemicals and are working towards a reduction by 2020.

#### INTELLIGENT DIRECTIONAL REFLECTION

When safety counts our Intelligent Directional Reflection technology will ensure you're seen from all angles. Our angled chevrons allow people to know if you're facing towards or away from them at a glance, increasing safety in low light.
